Broward County Transit Introduces a System Wide Community Bus Service Map

Broward County Transit (BCT) has introduced a new, four-color Community Bus Service system map. The map details the individual routes of all 21 municipality community bus services on one side, and the BCT fixed-route bus service on the reverse side, including the transfer points to the fixed routes and neighboring community bus services.

The community bus service, a partnership between the Broward County Board of Commissioners and 21 municipalities, is designed to increase the number of destinations within city limits that residents can access through public transit. Service is provided to neighborhood shopping centers, parks, libraries, and other locations. The buses are air-conditioned, wheelchair accessible, and are equipped with bike racks.

Community bus municipal partners include: Coconut Creek; Cooper City; Coral Springs; Dania Beach; Town of Davie; Deerfield Beach; Fort Lauderdale; Town of Hillsboro Beach; Lauderdale-by-the-Sea; Lauderdale Lakes; Lauderhill; Lighthouse Point; Margate; Miramar; North Lauderdale; Oakland Park; Parkland; Pembroke Pines; Plantation; Pompano Beach and Tamarac.

“BCT is committed to providing residents and visitors with the necessary tools to make travel on its buses as easy and accessible as possible. The introduction of this new Community Bus Service map demonstrates that commitment,” said Christopher Walton, Director, Broward County Transit.

The maps are free and available on the community buses, at participating municipal locations, at the Central Bus Terminal in downtown Fort Lauderdale, and by calling BCT customer service center at 954-357-8400. An online version is also available at www.broward.org/bct.
